For Your Information:

Computer power is now 8,000 times less expensive than it was 30 years ago. If we had similar progress in automotive technology, today you could buy a Lexus for about \$2. It would travel at the speed of sound, and go about 600 miles on a thimble of gas!

Let us save you the time involved in the hiring process. One call to our office and we handle the rest. We **guarantee** all our placements.

Congratulations to **Altus Group** on being the successful winner of “**Pizza Lunch**” contest. By calling 579-3400 and placing a job order, their name was submitted for the draw.
Make sure your name is in for the next contest!
